Candidate metric
any resilience statistic
G1 validity screen
recovery · discrimination · sensitivity
G2 instrument self-check
negative-control band · permutation · shuffled-label repaired (§4.2)
G3 controlled estimation + audit trail
every number → a hash-verified artifact
Ledger entry
positive
negative
self-reported failure → two-list rule (§4.1)
reportable: the failure report itself — cell identities and the pre-registered window
withheld: every quantity read off the failed instrument
